GRADE POINTS

Forty Eight Men to Take Tau Beta Test

For the past four days, since Tuesday, November 1, forty-eight Tau Beta Pi pledges have been seen dressed in suits, wearing pledge pins, and carrying their wooden bents (the bent is the Tau Beta Pi symbol, which represents a railroad support bent) and goody boxes from department to department on campus and throughout Rolla meeting the members of Missouri Beta Chapter by securing the active signatures on the bents at the price of a portion of the goody-box contents per signature. However, the signature seeking is only a part of the duties of those who seek the honor of membership in Tau Beta Pi. Many long hours have been spent during the past week studying Tau Beta Pi History and National Constitution, Missouri Beta Chapter By-laws, and MSM History for the event which is the climax of all pledge activities, the society's Entrance Examination. The subjects mentioned above, however, are only a small part of those covered on the test, for it includes almost every subject imaginable from archeology to zoology. Although committed to memory, the novices are allowed to use reference material for the some sixty different subjects of the test. The ordeal will start early tonight and will last until early tomorrow morning. A minimum average score of sixty-five percent must be maintained by all who expect to become members of Tau Beta Pi. Although undergraduate members are selected only after they have completed the above requirements, alumni members are picked on the basis of their achievements in the fields of their work. This year Missouri Beta Chapter has selected as alumni initiates Dr. M. R. Strunk, Professor of Chemical Engineering at MSM, and Dr. E. J. Scott, of the Naval Ordnance Laboratory in Silver Springs, Maryland. Dr. Strunk obtained his B. S. from Kansas State in 1941, M. S. from MSM in 1947, and Ph.D. from Washington University in 1957. He has been employed by the National Lead Company, U. S. Navy Yard, Shell Oil Company, and the U. S. Air Force, is a member of Sigma XI, Alpha Chi Sigma, and Alpha Tau Omega, and is listed in "Who's Who in Engineering." Dr. Scott obtained his A. B. at Washington University in 1937, his M. Sc. at Ohio State in 1941, and his Ph.D. at the University of Michigan in 1946. He has worked on the construction of a cyclotron at Ohio State, spent five years as a member of the Radiation Laboratory Staff at M. I. T., performed his doctoral research in beta ray spectroscopy, and is now doing basic research at the Naval Ordnance Laboratory.

For those pledges who complete the requirements of pledge week and prove their intellectual ability on the quiz, and for the two alumni initiates, a formal initiation and banquet will be held on Saturday, November 5. These ceremonies will conclude the requirements for membership, and Tau Beta Pi will have added a new group of engineers and scientists to its annals of honor.

BSU Convention

The State BSU Convention will be held at Springfield this weekend, November 4-6. The sessions, from 7:30 p. m. Friday until 10:00 a. m. Sunday, will be centered on the theme "Committed to His Lordship." The Discussion Conferences really sound interesting, several topics being, "Are Denominational Differences Really Significant?" "Christianity and 'isms,'" and "Marriage Is for the Mature." Dr. Andrew C. Ivy of the University of Illinois College of Medicine will be one of six headline speakers, each one tops in his field.

The Baptist Student Union has been busy socially this month. On the 15th a busload of Student nurses from the Missouri Baptist Hospital arrived. Over a hundred attended the Homecoming activities at the Center that weekend, fifty per

(Continued on page 4)

HUGE SUCCESS

Parents Day

The annual MSM Parent's Day was held last Saturday with over 1200 parents on the campus. This year's Parents' Day was highlighted by three main events: (1) Tours of the campus, (2) Football game, Miners vs. Warrensburg, (3) Parents' Day Banquet.

The Parents' Day Banquet was held in the Rolla High School cafeteria and was attended by 605 parents and faculty members. Dr. Mark Scully, President of Southeast Missouri College gave an inspiring talk that was enjoyed by all.

The football game was lost to Warrensburg with a score of 23 to 21. The rain that fell in the afternoon did not dampen the spirit of Parent's Day at the football or the banquet.

Prof. G. G. Skitek, Chairman of the Commencement and Public Occasions Committee stated that the number of parents and faculty at the banquet broke all previous records.

Alpha Sigma Mu Initiates Five

Alpha Sigma Mu, the honorary Metallurgical fraternity, held its fall initiation banquet Thursday, Oct. 27, at the Student Union.

The five initiates were: Thomas Lampe, David Delling, Gary Welch, John Straatmann, and Thomas Theobald. The banquet was given in their honor.

Two speeches highlighted the evening. The first was given by Dr. A. W. Schlechten, who spoke about the recent Alpha Sigma Mu Convention in Philadelphia. Dr. H. P. Leighly then spoke on the Alpha Sigma Mu chapter at the University of Illinois where he is a regular member.

Honorary members present were: Dr. A. W. Schlechten, Professor A. Legsdin, Dr. William Frad, and Professor Robert Wolf.

The initiation was performed by President Garland Grechus.

IMPRESSIVE CEREMONY

MSM ROTC Department Held Annual Awards Convocation on October 21st

The Annual Fall Awards Ceremony marking the end of the Fall Drill Season was held by the ROTC on October 21st. The ceremony consisted of a final parade during each of the drill periods during the day.

The Board of Curators of the University of Missouri Summer Camp Medal for the most outstanding MSM Cadet at the 1960 Summer Camps was presented to Cadet Lieutenant Colonel Gary R. Baumgartner by Dean Leon Hershkowitz. Baumgartner was also presented with the bar of a Distinguished Military Student. This is an honor awarded to students who have achieved a consistently high degree of proficiency, both in the ROTC program and in their overall academic standing in the school. It is given to the most outstanding 10 to 15 percent of the Senior ROTC Students; these Distinguished Military Students are the only cadets who are permitted, if they desire, to apply for appointment in the Regular Army.

Other cadets appointed as Distinguished Military Students are: Cadet Lieutenant Colonel Thomas K. Bohley, Cadet Lieutenant Colonel Gerald E. Brunkhart, Cadet Lieutenant Colonel Donald W. Burlage, Cadet Lieutenant Colonel Larry L. Dix, Cadet Captain Allen D. Early, Cadet Captain Andrew P. Elias, Jr., Cadet Lieutenant Colonel Joseph C. Gay, Cadet Major Lawrence E. Harvey, Cadet Colonel Lawrence L. Hoberock, Cadet Lieutenant Colonel John B. Jorster, Cadet Captain Michael C. Kearney, Cadet Major Darrell D. Kilburn, Cadet Second Lieutenant James H. Martin, Cadet Major Terry L. Mills, Cadet Major Gerald D. Misemer, Cadet Major Antonio D. Pezza, Cadet Major Arthur P. Reckinger, Jr., Cadet Colonel John W. Ricketts, Cadet Major Lowell G. Roberts, and Cadet Major Delmar L. Short.

Cadet Second Lieutenant Kenneth J. Schader received the Board of Curators of the University of Missouri Medal for Marksmanship.

The PMS Award is a four-

ragere given for excellence in drill, leadership and command. This award was given to the following 10 Freshmen: Phillip G. Anderson, Larry G. Cline, Hubert C. Jones, Gerald K. Orrison, Ronald A. Rausch, Michael F. Simmons, Leslie D. Stapleton,

ceived a Red Fourragere, their first awards: John S. Bosnak, Ronald L. Deutschman, Terrence J. McMahon, Richard A. Perko, Robert V. Rommelman, Robert O. Schwenker, and Richard K. Shimamoto.

The following six Junior cadets

Capt. Northcutt and Col. Taylor congratulate Kenneth Schader—USA Photo

Glen A. Vaughn, Robert J. Vogelpohl and Robert H. Winn, Jr.

Sophomore Cadet Melvin J. McDuff received a Blue Fourragere, his second PMS Award, and the following Sophomores re-

received the award. This was the first award for each, except for Cadet Payton, who received the award once before. Sergeant First Class Francis M. Nataluk, Sergeant Major John E. O'Krephy, Sergeant First Class Donald R. Pogue, Sergeant First Class Daniel N. Payton, III, Sergeant Major John Rabacs and First Sergeant Daniel R. White.

POLITICAL CAMPAIGN

Final Topics Discussed; Outcome Predicted

By T. S. Dunn

In this, the last article of the political series, the writer wishes to express his appreciation to the Miner Board for giving him the opportunity to inform about and to create interest in the national presidential election. I would also like to express my gratitude for the tremendous interest and enthusiasm that many of the students have displayed during this series. In an effort to bring this effort (to inform the students on the national and international issues) to a climax, the Student Council is sponsoring a Student Discussion Forum. The Discussion will be held tonight at 7:00 p.m. in the Student Union Ballroom. It is hoped that there will be a tremendous turnout at this final effort to factually inform the Student body on the political issues. **SEE YOU THERE!**

EXPERIENCE

Richard M. Nixon, the Republican nominee for President, was born in California where he worked as a boy in his Quaker family's general store. He graduated second in his class at Whittier College and received his law degree, with honors, from Duke University in 1937. Nixon served in the U. S. Navy during World War II. He was elected to Congress in 1946, and was re-elected in 1948. In 1950 he was successful in his bid for a Senate seat and from there he went to the Vice-Presidency in 1952 under the popular Ike. Since 1953 as Vice-President, Nixon has received his training for the presidency. His main experience consisted of presiding over the Cabinet and the National Security Council (in the president's absence). He has been the president's personal representative to Congress handling the whole spectrum of domestic and international issues.

Kennedy, born into wealth and upper Bostonian society, has made a way in the world for himself by self determination, money, and work. He, after graduation from Harvard and serving in the Navy during World War II, like Nixon, reached the House of Representatives in 1946 in one of the hottest contests in Boston's lower district. Winning again in 1948 and 1950 Kennedy decided to move higher in the political world and ran against Henry C. Lodge (Republican Vice Presidential nominee) and successfully and surprisingly upset the election as he won and took his seat in the Senate where he gained the valuable experience he now needs to rely on. Kennedy has been Chairman of the Senate Foreign Relations Committee and has introduced many programs (both in the domestic and foreign relations field) in Congress. To further illustrate his ability to grasp the situation of the world, Kennedy wrote the book "Strategy of Peace." Lacking executive experience in the government, Kennedy has selfappointed advisors (some of the most intelligent men in this country) from Harvard and MIT and it is apparent that these men of ideas will carry much weight in a Kennedy Administration and will enable Kennedy to make up for this particular lack of experience.

OUTCOME

This writer is going to do what Gallup and Lubell and the others have (to date) declined to do because of the closeness of the race and that is predict how I think the voting will go. I give Kennedy 313 Electoral Votes against Nixon's 207 with the rest of the 537 votes going to other candidates. 269 Electoral Votes are needed to win the election.

UNIONS—LABOR

Nixon supports the Administration bill for \$1.15 with no extended coverage while Kennedy supports a \$1.25 with coverage extending to as many as 5,000,000 more people mainly in retail and service enterprises with more than \$1,000,000 annual sales.

On the right to work laws Nixon would allow them while Kennedy would appeal the section of the Taft-Hartley allowing them.

A Taft-Hartley Revision is sponsored by Kennedy and he would give the president additional powers in national emergency strikes to include stronger mediation authority, fact finding, seizure, and retroactive pay. Nixon has advocated nothing very new in this field only more mediation, compromise, and co-operation.

CIVIL RIGHTS

On this issue the candidates are in agreement with Nixon being a little more outspoken in the South than Kennedy. However Kennedy has made up for the lack of specific stands in the South by his definite statements during the TV debates.

ECONOMIC GROWTH

Nixon says, "We believe the role of the Federal Government should be limited to creating a proper climate for individual and private enterprises and to supplement it only when the public interest is paramount."

Kennedy proposes a yearly growth rate of 5% and says that this amount will almost eliminate unemployment and will not cause inflation. He blames much of the past domestic problems on the tight money policies followed under the Eisenhower administration.

MILITARY STRENGTH

Kennedy has adopted the attitude that this country has not been standing still but that it must move ahead at an even faster rate than it has in the past years if it is to maintain peace with the Communists.

Nixon says that the military strength of this country has never been stronger and that we are far ahead of the Communists and that there is, at present, no chance for the Communists catching us.

TAXES

Nixon is of the opinion that, if the occasion arises, that the taxes should be raised only to meet a "national emergency" and is very definite in his stand on a balanced budget and attacks Kennedy on the issue of the expenses of Kennedy's programs.

Kennedy says that the growth of the nation is paramount and that nothing should stop this growth and that a slack of growth is inviting the Communists to catch up with us in all fields. He has evaded the basic question of how to finance his programs by saying

that cheaper interest rates, more growth, and economical spending will make his program fit into the budget. However Kennedy is very plain in the fact that if it became necessary to raise the taxes to carry out his programs, he would.

During this series not all the issues were discussed and none were discussed adequately and it is the suggestion of this writer that any interested citizen who desires more information can obtain it through other news media and through the Democratic and Republican Headquarters located here in Rolla.

EDITORIAL COMMENTS

Catholic's Position in Regards Pope Clarified

This week the Miner has suspended publication of "Political-Religious" letters, and in their stead the following summary of facts concerning a Catholic's obligation to his church is presented.

Catholics are obliged to obey the Pope only when he speaks on matters of faith and morals, and then only when he speaks infallibly as Christ's representative on earth.—(Ex cathedra)

Catholics are obliged to consider carefully what the Pope says concerning matters, but they are not obliged to obey the Pope unless the conditions mentioned

in the preceding paragraph are satisfied. The Papal Letter or Encyclical is the method commonly used by the Pope to speak to the people on topics other than faith or morals.

These facts have been gathered from reliable sources and we feel that they have been presented in as fair manner as is thought possible.

We want to thank all those who wrote in their comments on the topic. It is hoped that the letters will continue to come in on topics of interest to the student body.

Tonight at 7:00 a student Political Discussion Forum, sponsored by the Student Council, will be held in the Student Union Ballroom. This discussion is open to the student body and all students are urged to attend and actively participate in the Discussion Forum. Prof. Wolfe, of the Metallurgy Department, will be the moderator of the discussion and will enforce the following ground rules that have been set up by the Student Council Committee in charge of arranging the Discussion:

1. Questions from the floor are limited to one minute each and should be directed to one of the four panel members. (Two Democrats and two Republicans).

2. The panelist answering the question will have two and one-half minutes to reply.

3. The opposition will have two and one-half minutes of rebuttal and then discussion will move to another question directed from the floor.

4. The only restriction of

topics to be discussed will be the complete elimination of any floor or panel discussion of the political-religious issue (this was arrived at after faculty and student consultation in an effort to provide the most effective discussion possible.)

The discussion will develop entirely around questions from the student body and every attempt has been made to insure that high level, informative and factual answers will be given by the panelists in their efforts to present the issues on both sides of the questions under discussion.

It is to the advantage of every student on this campus to be present tonight and question the panelist on the political issues about which he desires more factual information. If the student body fails to support this effort, in mass, it can fully be expected to be a grand "flop" and will discourage any future efforts to organize student discussion groups.

"Golly, I sure get
a lot for my
money from
College Life's
BENEFACTOR!"

HERE'S WHY:

College Life insures only college men.
College men are preferred risks—

BECAUSE with the exception of the first years out of school, college men do not work at jobs where the accident rate is high or health conditions unfavorable;

BECAUSE college men generally get good paying jobs, so they can afford the best in medical and hospital care;

BECAUSE college men are smart enough to get health check-ups more frequently than the average;

BECAUSE their income allows for better food, housing and other living conveniences that help lengthen life;

BECAUSE college men usually buy larger policies than non-college men. This reduces handling expense. (For example, it's a lot less expensive to administer one \$10,000 policy than ten \$1,000 policies).

More-for-your-money is only one of nine big benefits you get from THE BENEFACTOR.

Ask your local College Life representative* for the full story.

An Open Letter to the MSM Military Department

It is easy, when attempting a constructive criticism, to enter the realm of the biased opinion. My intention in writing this letter is not to degrade but, at long last, present an objective criticism of the military department.

One of the primary goals of higher education is the development of a sense of proper values. The lack of this value is perhaps the underlying defect in the military department.

MILITARY SCHOOL?

Inevitably, for the betterment of M. S. M., the military department is going to have to face certain facts. This is NOT a military school, nor is it a school mostly composed of a student body even the least bit interested in military life. Furthermore, we are engineers, not draftees; not shoeshiners; not brass polishers; but students of the sciences and the military department is a thorn in the side of the student engineer. As the military department faces these facts, as it surely must, it will assume the secondary role for which it is destined.

It has been said that the military department is wholly unnecessary. This is probably true . . . however, by an Act of Congress passed a century ago, we are compelled to play war in quick time cadence and spit shined shoes.

INSPECTIONS

In recent years, the whole aspect of military training has been blown completely out of proportion. Inspections, which were once satisfactory, have in recent times become ridiculously detailed. Should it be necessary for a full time student of engineering to spend several hours a week in grooming his military appearance? Wouldn't it be advantageous for a student with no interest in R. O. T. C. to spend this time in useful study?

OFFICERS

I wonder if it is possible to conduct a large group of civilians in a military manner. I think not. We should all agree that the cadet officers are in general a picture of incompetence, and yet the military department entrusts one half of a cadet's drill grade to the discretion of these pseudo soldiers. Is this logical; even fair? And yet the powers to be in the military department wish to place their department on a plane with the remaining college curricula. It is illogical, on a foundation of incompetence to do so, and yet this is what has been done.

Staff of the military department, take an objective view of your group. Forget your individual love for the army. Remember, we are not full time soldiers, but primarily engineering students trying to get a degree in

engineering, not a degree in military science.

Tracy Boyer
James P. DeLong

BSU Convention

(Continued from Page 1)
cent of them female.

The following weekend several carloads of BSU'ers from MSM attended the game at Springfield and were guests at their Student Center for supper afterwards.

This past weekend the Center was buzzing with the activities of Parents' Day which were climaxed with a wiener roast after the game to which the Warrensburg BSU was also invited.

As the lovely bride said to her husband—"Isn't it just too wonderful, dear, you being able to afford a gorgeous baby like me."

Did you know the bathtub was invented in 1850, and did you also know the telephone was invented in 1875? This probably doesn't mean much to you, but just think, if you were living in 1850, you could have sat in the bathtub for 25 years without the darn phone ringing.

Spelunkers

(Continued from Page 1)

The group will begin to meet at Friends Resort Friday evening for a general bull session. Saturday there will be caving trips sponsored by MSM, with members of our club serving as guides. Saturday evening the business meeting will start at 7:30. The various clubs will bring up any business that they may have. New maps, cave locations, and etc. will be presented in the meeting. Sunday there will be additional cave trips if desired.

The MSM Spelunkers Club has made elaborate plans to make this one of the most interesting speleological conventions ever to be held in the state.

And while on the subject of fantasy, there's absolutely no truth to the rumor that Krushchev has been signed to star in a film called "Suddenly Last Summit."

Overheard: "He got a power mower, but now he says we'll have to move to a place with a bigger lot so he'll have room to turn it around."

Around the holidays you'll notice that the only thing stronger than Mother's Love is Father's breath.

DEAR JOHN'S

Advice to Miners

Dear John,

I have a problem. The fellows from this fraternity I belong to elected my girl to be their queen candidate for the military ball. Since I did not take advanced ROTC I do not have a uniform to wear and I cannot afford a tux. Would it be proper to borrow someone else's uniform for the occasion.

Lowly Civilian, Ev.

Dear Lowly Civilian, Ev,

No it wouldn't be proper, but do it anyway since you got stuck with the job. I am sure you will be able to find a FEW fellows from your house that won't be going to the ball. They will probably be more than happy to let you borrow their uniform.

John

Dear John:

My parents came down for Parent's Day last weekend, and while my Mom was attending a meeting of the mother's club, Dad and I toured the places of interest around Rolla. Well, to make a long story short, he drank me under the table. How can I avoid this in the future?

Defeated

Dear Defeated,

Student Union Mixer Nov. 12

The Student Union is having a "Get-Acquainted Party" Saturday afternoon and evening, Nov. 12.

Representatives from Lindenwood, Stephens and the other neighboring colleges will arrive at 2:30 Saturday afternoon. The Jazz Central Octet will supply the music for the Miners and the Coeds from 8:00 until 12:00 Saturday evening.

Fella's, you all know that the first impression is an important one, so the Student Union Mixer Committee encourages all of the Miners to come to the Student Union casually dressed, preferably with a tie, to pick up their dates Saturday afternoon. Semi-formal attire will be appropriate dress for the dance Saturday evening. Also the planning and scheduling of any future activities of this nature will depend upon the success of this endeavor.

This Mixer is sponsored by the Student Union and therefore there is no charge. However, no arrangements are made for dinner for the Coeds, so the Miners will want to take their respective dates to dinner.

With the Mixer in mind let's not forget the other activities sponsored by the Student Union. There will be a bridge tournament starting next Tuesday, November 8, and the time to sign up is now. This will be a partnership tournament and instructions for signing up are on the bulletin board in the Student Union. Also Sunday the Student Union will present the movie "Rhapsody in Blue" starring Robert Alda, Joan Leslie, Alexis Smith, Paul Whiteman and his Orchestra. The story is about the life of George Gershwin, one of the great figures of American music.

ROTC

(Continued from Page 1)

Award were: Lieutenant Colonel Thomas K. Bohley, Lieutenant Colonel Gerald E. Brunkhart, Lieutenant Colonel Joseph C. Gay, Colonel Lawrence L. Hoberock, Major Terry L. Mills, Major Gerald D. Misemer, Colonel John W. Ricketts, and Lieutenant Colonel Robert D. Moss.

The award was received for the third time by Bohley, Brunkhart, Gay and Hoberock and for the fourth time by Ricketts.

"Grandma, where are you going?" the youngster asked the oldster as the latter applied lipstick, rouge and a dab of "Make 'em Melt" perfume behind each wrinkled ear.

"I'm going out," cackled the grey-haired one. "I'm going to glow like the flame of youth."

"But grandma, your 'glowing' days are over, er-a-and your flame of youth is—well, it's..."

"Hush your patter child. Don't ever think that just because the light is out the current is off!"

"IT'S HERE—IF YOU WANT TO WORK FOR IT"

Even before Ron Spetrino received his engineering degree from Case he had good job offers from six companies.

He joined The Ohio Bell Telephone Company—his reason: "I was convinced an engineer could go further here—if he was willing to work for it."

As soon as Ron got his feet on the ground in telephone engineering, he was tapped for a tough assignment. The job—to engineer switching equipment modifications needed to prepare Cleveland for nationwide customer dialing of long distance calls.

Ron wrapped it up in five months, and found he had earned a shot at another tough assignment. In this job Ron helped engineer a completely new long distance switching center for Cleveland. This switching center connected Cleveland with the nationwide customer dialing network. It was about a year later that Ron put the finishing

touches on the specs for this \$1,600,000 project.

Today, as a Supervising Engineer, Ron heads a staff of five engineers and is responsible for telephone switching in much of the greater Cleveland area.

He supervises the design and purchase of \$3 million worth of equipment a year. And even more important, he is charged with developing the technical and managerial skills of his staff.

Ron knows what he's talking about when he says, "In this business you have to do more than a good job. We expect a man to be a self-developer. We expect him to take responsibility from his first day on the job and think for himself. You don't get ahead around here by just doing time."

If you want a job in which you're given every chance to prove yourself, and real responsibility right from the start—you'll want to see your Placement Office for further information.

"Our number one aim is to have in all management jobs the most vital, intelligent, positive and imaginative men we can possibly find."

FREDERICK R. KAPPEL, President
American Telephone & Telegraph Co.

WHO'S WHO in Intramurals

Larry Bauer

Larry Bauer of Tau Kappa Epsilon has made a great name for himself at two colleges, Missouri School of Mines and Southeast Missouri State, in both intramural and extracurricular activities.

At Southeast Missouri State, Larry was active in intramural football, track, softball, and basketball. Tau Kappa Epsilon, with the help of Larry Bauer, won the intramural football championship last year. In track, he won the 100 yard dash and placed second in the 200 yard dash.

Larry was an active member of the Physical Science Club and Alpha Phi Omega, twice vice president and once secretary.

Upon transferring to Missouri School of Mines, he continued his many activities. Larry, now a senior, is a member of Theta Tau, American Institute of Chemical Engineers, Gamma Delta, and is secretary of the American Rocket Society.

In intramural sports for Tau Kappa Epsilon at Missouri School of Mines, Larry participates in flag football, track, table tennis, softball, volleyball, and basketball.

This season in football, Larry, playing left half back, scored fifteen touchdowns and in Spring track placed fourth in the 50 yard dash, fifth in the 100 yard dash, and was a member of the winning 440 yard relay team.

Even with his many abilities and activities, Larry maintains a grade point of 2.5.

Last Minute Field Goal Stops Miners For 7th Straight Loss

A drizzling rain was coming down as the Miners and the Warrensburg Mules lined up for the opening kick-off of the Parents' Day game last Saturday afternoon. The first quarter was mostly a see-saw affair with neither team threatening. The Miners moved the ball to the 50 on a 30 yard pass play from Usher to Wiegard but missed on the next pass as Warrensburg's Kunz intercepted, bringing the pigskin to the Miners 45, but they were stopped cold and had to punt. The rest of the quarter the two teams took turns trying to break loose but the gun sounded with no score.

The second quarter started with excitement in the air for the Miners as Ferguson intercepted a pass and carried it into the end zone only to be called back as he stepped out of bounds on the 50. The excitement soon died when Warrensburg recovered a bad pitch-out by the Miners and put six points on the scoreboard. The point-after-touchdown was no good. After the Mules kick-off the Miners again fumbled resulting in another Warrensburg touchdown. They then picked up two points on the P.A.T. with a pass play making the score 14-0. On a series of ground plays the Miners were able to move the pigskin to within inches of pay dirt with just over a minute left in the half. Usher, trying a plunge dropped the ball but Jerry Scoggins pounced on the football in the end zone for the first MSM touchdown. Deranja then

hit into the line and added two more points.

The second half started as the first did until Miners Jerry Leslie blocked an attempted Warrensburg punt and on the next play Bob Smith pulled in a pass from Usher and went 33 yards to tie the score 14-14. The Miners went ahead later in the half when Paul Wiegard carried around left end from the 20 scoring 6 points and the kicked con-

stitution was good, making the score 21-14 in favor of the home team. The Mules retaliated when half-back Jerry Boyce returned a punt for 71 yards and 6 points making the score 21-20. The game continued with our Miners

ALMOST STOPPED THEM

getting their first win of the season.

The statistics are as follows:

| | Warrensburg | MSM |
|--------------------|-------------|------|
| First downs | 20 | 15 |
| Rushing yardage | 241 | 187 |
| Passing yardage | 133 | 87 |
| Passes | 7 | 7 |
| Passes intercepted | 3 | 3 |
| Punts | 4-36 | 7-33 |
| Fumbles lost | 7 | 5 |
| Yards penalized | 25 | 25 |

Miner Distance Runners Steal Triangular Meet

By Larry Bailes

Miner cross countrymen topped Westminster and Central State here last Saturday. The weather was not at its best for a cross country meet, being cold, cloudy, and windy, but it didn't hamper the runners too much,

Cape Prediction Must Be in Today

The Sports Predictions Contest is getting tougher each week with only two predictions left to go. The Cape game guesses are due today at Bishop's Men's Shop. The following are the leaders, with many others closing in on them.

| Ron Brenner | 53 |

Miners Go Against Cape With Indians Favored

Tomorrow the Miners who are still seeking their first win of the season, will take on the Southeast Missouri State Indians at Cape Girardeau. They are defending conference champions. Although Cape Girardeau lost its first league game to Kirksville 6 to 0 on a rain-soaked field Coach Gale Bullman thinks they outplayed the Bulldogs and are probably the best team in the conference. In other games Cape has beaten St. Benedict's 16-15, Western Kentucky 28-19, Warrensburg 23-0, and Maryville last week 7-6. Besides Kirksville they have lost to Delta State 6-13 and Drake 6-17.

The Indians have some of the top men in the conference. Three

of their backfield men, Dean Lane, and McLanahan, have averaged 5.0, 4.6 and 4.5 yards per carry respectively. Their quarterback, Chronister, has completed 48.7 percent of his passes and they also have the conference's second best punter, Hinchy, who is averaging 38 yards per kick.

The last time the Miners beat the Indians was in 1956 when they upset them in Cape Girardeau 10 to 0. The series with the Indians dates back to 1906. Since that time, the Miners have won thirteen games; Cape has won thirteen and two games have ended in a tie. Tomorrow's game will decide who takes the lead in the fifty-fifty series.

Cross Country Team Runs Over Lincoln

By Larry Bailes

Last week the Miners' cross country team traveled to Jefferson City to shake up the boys from Lincoln. Running in the rain, the MSM team took the first four places and sixth to score 16 points—one over the perfect score—against the Lincoln score of 39.

Dick Woodfield took first place with an unofficial time of 20:33 on a 3.75 mile course. Leslie Sheets and Bob Steiner came in together for the second and third places with a time of 20:38; next came John Brown at

21:01; then the first Lincoln man, Archie Haymon, crossed the line with an elapsed time of 21:09. Sherman Brady brought home sixth place for the Miners timing 21:19.

The other Lincoln scorers were Melvin Peeples, 7th, 21:39; Willie Rogers, 9th, 21:40; Clifford Aith, 11th, 22:45; and Jack Harris, 14th, 24:43.

The Miners ran against Lincoln again last Wednesday on the MSM course in a tri-meet with Southwest Missouri State. Results of that meet will be published next week.

Letters to the Editor

Dear Sirs:

There has been something bothering me since the early part of this school year, and after this last weekend I believe it is time for someone to speak up. Saturday afternoon, since it was raining, I had the opportunity of watching the football game from the car, as well as listen to it on the car radio. The point I am

trying to make is this, who is responsible for the hiring and firing of our loyal football announcer? How do the school authorities expect the students to have school spirit if the only on the spot live account is broadcast by a seemingly unfriendly announcer.

I believe that if most of us try, we can remember at least one broadcast where the announcer either made an insulting remark or expressed his own personal opinion of a player or players.

It is common knowledge among students that we aren't supposed to have an All American team. We know that our football players have to study the same subjects as the students in the stands. Why is it then, that the announcer gives us the impression that the students on the field should be in the stands?

Why do the intramural games draw more fans than the school games? I believe a major factor, if not the major factor, is the spirit that surrounds the games.

It is too late to do anything about the past, but I hope the right people read this letter so that in the future we have an announcer that is on our side.

Respectfully submitted,
John Jokerst

golf course. Maryville and Kirksville are supposed to have tough teams this year, so tomorrow's meet should be pretty close.

Modern Youth—"Come, Miss Primrose, let's take another walk round the park—I do hate these hasty marriages."
